FIVE BILLIONS IS SEC. MADDOO'S AIM

Wants That Subscription to Third Liberty Loan—Towns Should Not Be Satisfied with 100 Per Cent Record.

Washington, D. C., April 26.—Another plea for local campaign committees not to stop working after communities reach their Liberty loan subscription quotas went forth yesterday from Secretary McAdoo, prompted by recurring reports that workers in some towns are satisfied with 100 per cent records. "If we stop fighting when we reach the minimum of the Liberty loan," said the secretary in a statement, "we are not comparably sustaining our sons in France, who are not fighting for the minimum, but for the maximum, of America's rights and world liberty." At the rate the country is subscribing this week, the loan will be slightly over subscribed, but treasury officials are hoping, not for a slight over-subscription, but for a total of at least \$5,000,000,000. The aggregate of reports to the opening of business to-day is \$1,790,478,150, which is \$132,000,000 more than the total announced Wednesday night. The average daily subscriptions necessary until the end of the campaign are \$120,000,000 to make the \$5,000,000,000, and \$320,000,000 to make the \$5,000,000,000. This shows why the treasury is anxious for more speeding up.

THREE MEN LOST ON THE ST. PAUL

When Famous Passenger Liner Overturned and Sank at Dock

MEN WERE CAUGHT INSIDE THE SHIP

The Big Vessel Was Being Prepared for a Trip to Europe

An Atlantic Port, April 26.—Three men probably lost their lives when the American line steamship St. Paul, a famous passenger liner, overturned and sank at her pier yesterday while being warped into dock preparatory to loading for a trip to Europe.

After being brought alongside the pier from a nearby drydock, the St. Paul listed suddenly to port. Masts and funnels came in contact with the roof of the pier shed, this apparently preventing her from turning over entirely. While the workmen on board were jumping into the water or climbing to the pier, other laborers hurried to the roof and endeavored to make fast the masts and funnels. These snapped one at a time, however, and the bow of the vessel settled on the bottom, leaving only about 150 to 200 feet of the after part of the ship above the surface.

It was reported that soon after the St. Paul overturned, fire in an unburned part of the vessel was extinguished by fireboats. Passengers on a passing vessel also reported that they could see men at work on the exposed part of the hull cutting holes through the side with gas flame torches. Observers from the tops of buildings overlooking the pier saw rescuers cutting holes in the part of the hull above water, letting down ladders and bringing up men who had been imprisoned.

Crawford Ranges

Success Crowns Her Every Dish

Of course you've guessed the secret of her success—it's the Crawford Range. Of the exclusive Crawford features here are the ones she likes best:

Interchangeable Coal Hods—one for ashes, one for coal, concealed, clean—labor saving, means one trip to empty ashes and bring back coal.

This style Range in four types, Palace, Castle, Fortress and Cottage.

Single Damper, which "Bakes," "Checks," and "Kindles" with one motion of an always cool knob.

A Convenient Gas End Oven, equipped with improved gas broiler. This broiler is instantly adjustable to hold the food at any required distance from the flame without touching the pan, without bending over. It folds away when not in use.

Perfection of design and finish, long service and utility, distinguish Crawford coal ranges—or gas combinations.
